## BRIEFING ON THE INSTALLATION AT MOZHAYSK

Emcee of the Briefing: James Q. Reber

1. Factual statement of the installation at MOZHAYSK based on photo interpretation.  
Mr. Arthur C. Lundahl, Chief, HTA, CIA
2. Summary of views as to the identification of the installation based on inter-agency conference on 4 January 1957.  
[redacted] OSI/CIA
3. Summary of additional investigations to date.  
Col. William L. Walker, AFOIN
4. Program of action.  
Mr. James Q. Reber, Chairman, ARC

50X1

It is proposed that another briefing be held for the IAC one month hence to report on the following:

- a. Results from a request now being levied on all potentially useful collectors for information which might bear upon identification and meaning of the MOZHAYSK installation.
- b. Request of the substantive research components of the community for intensive cooperative and independent examination as to the possible identification and meaning of the MOZHAYSK installation.
- c. Based on the foregoing, systematic requirements for possible collection by AQUATONE which would further identify or reveal meaning of MOZHAYSK installation or other relevant installations.
